INSTRUMENT PANEL

SERVICE INDICATOR

Illuminates when the ignition is turned on. If it remains on after the engine is started, your vehicle may have a condition that requires service. Contact your authorized dealer.

AIRBAG READINESS

Illuminates briefly when the ignition is turned on. If this light fails to illuminate, remains on or continues to flash after the engine is started, contact your authorized dealer for service as soon as possible.

LOW TIRE PRESSURE WARNING

Illuminates when your tire pressure is low. If the light remains on, the tire pressure should be checked. If the light does not turn on at ignition or begins to flash, contact your authorized dealer for service.

MULTIFUNCTION DISPLAY

The left side of your instrument cluster can display coolant temperature and the odometer, trip meter as well as various information. Use the OK and arrow buttons to scroll through menu options and make selections. Refer to the Instrument cluster video guide to the incredible features.

INFORMATION DISPLAY

If your vehicle is equipped with the myford touch™ system, you will have an information display on the right hand side of the instrument cluster. Use the OK and arrow buttons to scroll through available modes of entertainment, navigation, and more. Refer to your myford touch™ supplement for more information.

WARNING CONTROL

The system will increase brake support to help reduce collision speed. The system will automatically apply the brakes when necessary.

ADAPTIVE CRUISE COVE

Adaptive Cruise Control will help keep a safe distance from the vehicle in front. The system will automatically apply the brakes when necessary to help reduce collision speed.

DASH WARNING LIGHTS

The system will increase brake support when necessary and brake where necessary.

SPARE TIRE INDICATOR

Displays the location of the spare tire and spare tire pressure if equipped.

HEADLIGHT ON/OF

The system will increase brake support to help reduce collision speed. The system will automatically apply the brakes when necessary to help reduce collision speed.

SPEED LIMITER

When the system is active, the speed limit will display in the message center.

SPEED LIMITER

Press GAP up or down to select from four speed limits. The selected speed will appear in the message center.

SET/GAP

Press to set the speed. Use the OK button to confirm.

RES/GAP

Press to return to the previous speed. Use the OK button to confirm.

PUSHR BUTTON START

Allows you to start your vehicle without a key by pressing the engine start/stop button while pressing the brake pedal, provided your intelligent access key (IA key, if equipped) is inside the vehicle. If necessary, you can also start your car by inserting the IA key into the back-up slot located at the front of the center console storage compartment. Simply insert the IA key into the slot with the buttons facing up and the key ring out. Press the brake pedal and then press the engine start/stop button to start your vehicle as usual. You can remove the IA key from the backup slot once the vehicle is started, if desired.

HAZARD CONTROL

Press to activate the hazard warning flasher.

AUDIO CONTROLS

Volume: Press up/down to increase/decrease volume levels.

Seek: Press up/down to access the next/previous radio station preset, CD track or preset satellite radio channel (if equipped).

KNOBS

Use the center knob to adjust the volume and the outer knobs to adjust the volume and the outer knobs.

FACE DETECTION

The system will increase brake support when necessary to help reduce collision speed. The system will automatically apply the brakes when necessary to help reduce collision speed.

COLLISION WARNING SYSTEM

The system will increase brake support when necessary to help reduce collision speed. The system will automatically apply the brakes when necessary to help reduce collision speed.

WARNING SYSTEM

The system will increase brake support when necessary to help reduce collision speed. The system will automatically apply the brakes when necessary to help reduce collision speed.
