This Quick Reference Guide is not intended to replace your vehicle Owner's Manual which contains more detailed information concerning the features of your vehicle, as well as important safety warnings designed to help reduce the risk of injury to you and your passengers. Please read your entire Owner's Manual carefully as you begin learning about your new vehicle and refer to the appropriate chapters when questions arise. All information contained in this Quick Reference Guide was accurate at the time of duplication. We reserve the right to change features, operation and/or functionality of any vehicle specification at any time. Your Ford dealer is the best source for the most current information. For detailed operating and safety information, please consult your Owner's Manual.

**Warning**

Driving while distracted can result in loss of vehicle control, crash and injury. We strongly recommend that you use extreme caution when using any device that may take your focus off the road. Your primary responsibility is the safe operation of your vehicle. We recommend against the use of any hand-held device while driving and encourage the use of voice-operated systems when possible. Make sure you are aware of all applicable local laws that may affect the use of electronic devices while driving.

To put the QR tags to work for you, use your mobile phone's browser or app store link to download a QR tag reader. Then follow the directions to scan the QR tag and see your vehicle’s features come to life.
**MAXIMIZE YOUR FUEL ECONOMY**

Get the Best Fuel Economy When You Utilize These Few Tips

1. **Use smooth acceleration and braking.** According to the United States Department of Energy, aggressive driving can lower your gas mileage by up to 33 percent at highway speeds and 5 percent in the city.

2. **Carry the bare essentials.** The Department of Energy estimates that an extra 100 pounds in your vehicle could reduce your fuel economy by up to two percent.

3. **Seasonal fuel makes a difference.** Winter fuel contains slightly less energy than summer fuel, so the fuel blend you fill up with can impact your efficiency.

4. **Idling burns fuel, too.** You can burn up to half a gallon (1.9 liters) of fuel per hour while idling. Minimize your morning warm-up and parking lot waits to get the most out of filling your tank.

5. **Avoid extreme temperatures.** Find a shady or sheltered spot to help keep your lithium-ion battery operating efficiently, and minimize the amount of energy required to heat or cool your cabin temperature.

6. **Use fewer accessories.** Heated seats, the rear defroster, the air conditioner and other power features draw electrical energy. When you operate your accessories, you may notice that the gasoline engine needs to start. Check out your "Accessory Power" screen in your SmartGauge to see how much electricity is being used to power your vehicle’s accessories.

7. **Check your tires.** Proper tire inflation helps you improve your fuel economy by up to 3.3 percent, according to the Department of Energy, while underinflation could lower your fuel economy by 0.3 percent for every 1 psi drop in pressure of all four tires. Check your vehicle’s door sticker for recommended cold tire inflation pressure.

---

**FUEL HISTORY AND COACH**

Within the information displays, you’ll be able to see how your driving style directly impacts your fuel economy.

The instant fuel economy gauge provides instant fuel economy, plus your recent fuel economy averaged over selectable intervals of 1, 2 or 6 minutes.

The fuel coach gauge can teach you how to improve your fuel economy by providing feedback on your recent Acceleration, Braking and Cruising behavior.

**ECO Cruise Control** saves vehicle energy by slowing down acceleration compared to standard cruise control. Your vehicle may relax its acceleration temporarily when going uphill. This feature can be turned on and off through the Driver Assist section of the Settings menu in the information display.

*if equipped*
sMart poWer-split architecture

City Driving: In stop and go driving and at low speeds, the electric motor provides the necessary power. The gas engine kicks in only to recharge the battery or when more power is needed.

Accelerating: Step on the accelerator pedal and get all the responsiveness of a traditional gasoline engine.

Cruising/Highway Driving: Due to greater power demands at highway speeds, your vehicle will use the gasoline engine more frequently than it will while driving at city traffic speeds. This is normal.

Braking: For added efficiency, the energy created by friction during braking is recycled to the battery.

Stopped: To save energy, the gasoline engine will shut off and the electric motor will stop drawing current.

hybrid features

SILENT KEY START (SKS)
When you turn the ignition on, your engine may not sound like it has started because your hybrid-electric vehicle is equipped with silent key start. This fuel-saving feature allows your vehicle to be ready to drive without requiring your gas engine to be running. Instead of listening for a traditional gasoline-powered engine sound, look for the 'ready to drive' indicator light in your instrument cluster. When the light illuminates, your vehicle has been successfully started and is ready to drive.

quick tips
The Brake Coach appears in the display after the vehicle has come to a stop, and coaches you to maximize the amount of energy that can be returned through the regenerative braking system.

SMARTGAUGE® WITH ECOGUIDE
Delivers specific information about various systems on your vehicle using menus that build on previous data. Use your left-hand, 5-way steering controls to scroll through your menu choices:

Vehicle Range: Estimates the distance your vehicle will travel on the fuel remaining in the tank. Changes in your driving pattern may cause the value to vary.

Inform: Provides average fuel economy, fuel levels and battery status.

Engage: Adds power demand and instant fuel economy.

Empower: Adds an engine on/off threshold to the power demand gauge from Enlighten. See how much power you request based on how far you press the accelerator pedal.

MyView: Lets you customize your menu options, allowing you to select key information into one, combined screen.

EcoGuide: Displays leaf graphics within the right-hand cluster, showing you when you’re driving efficiently. More leaves equals better driving habits!

EcoGuide:
Displays leaf graphics within the right-hand cluster, showing you when you’re driving efficiently. More leaves equals better driving habits!

1 CRUISE CONTROL
To Set a Cruise Control Speed
1. Press the ON button and release.
2. Accelerate to the desired speed.
3. Press the SET + and release, then take your foot off the accelerator.

4. To disable, press the OFF button, tap the brake pedal or pull the CAN control toward you.

2 LEFT VEHICLE INFO DISPLAY
Provides specific information about various systems on your vehicle. Use the left, 5-way controls to use SmartGauge®, customize views, and choose and confirm settings and messages. Refer to the Information Displays chapter of your Owner’s Manual for more information.

5 TILT/TELESCOPE STEERING COLUMN
Unlock the steering wheel by pulling the lever down. Adjust the steering wheel to your desired position. Push the lever up to lock the steering wheel in place.

6 PUSH-BUTTON SILENT START*
Allows you to go into “Ready to Drive” mode by pressing the POWER START/STOP button while fully pressing down on the brake pedal. A green “Ready to Drive” indicator light will appear in the instrument cluster after you start the vehicle. This lets you know that the vehicle is on and ready for driving. Press the POWER START/STOP button again to turn the vehicle off.

NOTE Your intelligent access key must be inside the vehicle to put the vehicle in accessory mode or “Ready to Drive”.

7 HAZARD CONTROL
8 DOOR LOCK INDICATOR LIGHT
Illuminates when all of the doors are locked, and will not light when a door remains open or unlocked. The central door locks can be found on both driver and front-passenger doors, or on a keyless remote.*

3 RIGHT VEHICLE INFO DISPLAY
Access information about Entertainment, Phone, Navigation* or the animated EcoGuide with efficiency leaves by using the right, 5-way controls. Scroll through the menu, highlight selections and make adjustments. Press OK to confirm your choices.

4 STEERING WHEEL MEDIA CONTROLS
Volume: Press + to increase or – to decrease volume levels. Press OK to access the next/previous radio station, CD track or preset satellite radio channel.*

Pull to access voice recognition. Press to access phone mode or to answer a call. Press to end a phone call. OK to confirm your selection.
PAIRING YOUR PHONE WITH SYNC

In order to use many of the features of SYNC, you must first pair and connect your phone with SYNC.

To Pair Your Phone for the First Time
1. Make sure that your vehicle is in P (Park) and both your ignition and radio are turned on.
2. Press the OK button. When the display indicates no phone paired, press OK.
3. When Find SYNC appears in the display, press OK.
4. Put your phone into Bluetooth discovery mode. See your phone’s manual, if necessary.
5. When prompted on your phone’s display, enter the six-digit PIN provided by SYNC in the radio display.
6. The display indicates when the pairing is successful.

NOTE: The System May Prompt You to
- Set your phone as the primary/favorite (the primary phone will receive messages and voicemails).
- Download your phone book (this is required to use the full set of voice commands).
- Turn on 911 Assist®.

Tips
- Make sure you accept SYNC’s request to access your phone.
- To pair subsequent phones, please refer to "Pairing Subsequent Phones in the SYNC chapter of your Owner’s Manual."
- If you are experiencing pairing problems, try performing a clean pairing by deleting the SYNC connection from your phone, and then repeating the Pairing Your Phone with SYNC process.

WHY DO I NEED A SYNC OWNER ACCOUNT?
A SYNC owner account is required for Vehicle Health Report activation and the ability to view your reports online. You’ll also be able to take advantage of all of SYNC’s Services and personalization features, such as saving your Favorites and Points of Interest (POIs). You’ll receive the latest software updates that add new places, directions and information; and if you have questions, you’ll get free customer support. Create your account by visiting the website or calling the toll-free number for more information. See the Commonly Used Voice Commands page of this guide for more details.

USING YOUR PHONE WITH SYNC

NOTE: Enter your phone book contacts with both first and last names to increase SYNC’s ability to select the correct contact. Remember to say the contact name exactly as it is listed in your phone book.

Making a Phone Call
Use SYNC to make a phone call to anyone in your phone book by pulling the voice control switch and when prompted, give a voice command. For a list of voice commands, say “What can I say?”. For example, you could say "Call Jane Smith at home". SYNC repeats the command back to you and dials the number.

Do Not Disturb Mode
This feature blocks incoming calls and text messages, and saves them for later. You still have access to outgoing calls when this feature is active. Say the voice command “Do not disturb on” to enable and “Do not disturb off” to disable.

NOTE: You can make phone calls by pressing the voice control switch and when prompted, give the voice command “Dial”, then verbally say the phone number.

Answering Incoming Calls
Whenever you have an incoming call, you will be able to see the name and number of the person calling in the display. Press the OK button to answer an incoming call. You can hang up at any time by pressing and holding the OK button.

Using Voice Commands to Play Music
Plug in your USB media devices, such as phones and MP3 players, and use SYNC to play all of your favorite music.

Using Voice Commands to Play Music
1. Plug your media player into your USB port.
2. Pull the voice control switch. When prompted, say “USB”, then follow-up by saying one of the voice commands. For a list of voice commands, say “What can I say?”.
Getting Started, Understanding SYNC with MyFord Touch

Use the four-corner, four-color touchscreen to explore and interact with your vehicle. The touchscreen works the same way as traditional controls, knobs and buttons do. Press the various corners on your touchscreen firmly and accurately to personalize the many features and settings of your vehicle. The system provides easy interaction with your cellular phone, multimedia entertainment, climate controls and navigation system.

Hybrid Screen Information

Press the "road and leaf" icon to access features specific to your hybrid vehicle.

- The Power Settings display shows you where your vehicle power is coming from and where it is being used.

General Tips

- Press the home icon at any time to return to your home screen.
- For additional support, refer to your Owner’s Manual, visit the website or call the toll-free number for more information. See the Commonly Used Voice Commands page of this guide for more details.

**Available only with MyFord Touch**
Phone, Navigation, Climate and Entertainment are the four main features of SYNC with MyFord Touch. Each feature has its own corner represented by its own color.

**SYNC® with MyFord Touch® continued**

**PHONE**
Voice-control your phone for hands-free calling with your phone securely put away. With SYNC, you won’t even need to know the phone number. Just say the name of the person you want from your contacts.

*Your Phone Connects You with Many Other Features and SYNC Services**

» Connect to SYNC Services® for traffic, directions, business searches and information favorites.
» Connect to Operator Assist to help locate a listing or destination.
» Call for a Vehicle Health Report.
» Connects directly to a 911 Operator in the event of an accident (feature must be set to ON prior to an incident).
» Transfer calls seamlessly from SYNC to phone as you get in or out of your vehicle.

Refer to the SYNC chapter of your Owner’s Manual for complete details.

**NAVIGATION**
Get started with your navigation system by pressing the upper-right, green corner. The available voice-activated navigation system includes:

» SiriusXM Traffic
» SiriusXM Travel Link
» GPS (Global Positioning System) technology
» 3-D mapping
» Turn-by-turn navigation

Refer to the MyFord Touch chapter of your Owner’s Manual for complete details.

**CLIMATE**
SYNC with MyFord Touch controls the temperature, airflow direction, fan speed, and activates other climate features for you and your passenger. To use voice commands to operate climate, say a voice command like “Climate temperature 72 degrees” and MyFord Touch will make that adjustment.

_set your temperature

» Touch the lower-right, blue Climate corner on the touchscreen.
» Set your exact, desired temperature by using the + or – buttons.

**ENTERTAINMENT**
No matter how you store your music, SYNC makes it yours to enjoy when you’re behind the wheel. Just press the lower-left, red corner of the touchscreen.

*Set Your Radio Presets*

» Touch the Entertainment corner on the touchscreen.
» Touch FM.
» Touch Direct Tune.
» Enter the desired station and touch Enter.
» Touch Presets and then touch and hold one of the memory preset buttons to save it. The sound will mute briefly and return once the station is saved.

*Bring in Your Own Music*
Gain access to any audio source by voice and even control how each operates, like changing radio stations, CD tracks or music on one of the following devices:

» USB
» Bluetooth® Streaming
» SD Card
» A/V In

Refer to the MyFord Touch chapter in your Owner’s Manual, visit the website or call the toll-free number for more information. See the Commonly Used Voice Commands page of this guide for more details.

Set a Destination
Set a destination on your touchscreen by using a street address, a city center, a place on the map or a Point of Interest (POI). The easiest way, however, is by voice.

1. Pull the voice control up.
2. When prompted, say “Destination street address”.
3. The system will ask you to say the full address and will display an example on-screen.
4. You can then speak the address naturally, such as “One two three Main Street, Anytown.”

You can also use the touchscreen to enter a destination and narrow your choices by city or street as you type. You can choose from up to three different types of routes:

» Fastest: Uses the fastest moving roads possible.
» Shortest: Uses the shortest distance possible.
» Eco (Ecoroute): Uses the most fuel-efficient route.

*if equipped*
**REMOTE START**
To Remote Start Your Vehicle
1. Press the lock button to lock all the doors.
2. Press the remote start button twice. The exterior lamps will flash twice.

**NOTE** If you remote start your vehicle with an integrated keyhead transmitter, you must switch the ignition on before driving your vehicle. If you remote start your vehicle with an intelligent access transmitter, you must press the START/STOP button on the instrument panel once while applying the brake pedal before driving your vehicle. For complete information, refer to the Remote Control chapter in your Owner’s Manual.

**MYKEY®**
MyKey allows you to program certain driving restrictions in order to promote good driving habits. You can program things like: speed restrictions, limited volume levels and safety belt reminders. For complete information, refer to the MyKey chapter in your Owner’s Manual.

**110-VOLT AC POWER POINT®**
The power point is located on the rear of the center console and can be used to power your smaller electrical devices that do not exceed 150 watts. This feature is available to use when your ignition is turned on and the battery voltage is above 11 volts. When the indicator light is on, the power point is working and ready to use.

**CARGO STORAGE**
Your vehicle is equipped with two under-floor storage compartments that are located behind the front seats. You can use these compartments to store smaller items discretely. With the lids secured, your items will stay in place while you drive.

**FUNCTION**
INTELLIGENT ACCESS®
NOTE Your intelligent access key must be within 3 feet (1 meter) of the vehicle for intelligent access to function properly.

To unlock the driver’s door: Pull the front exterior door handle. Touch the raised sensor on the driver’s door handle to lock your vehicle.

To unlock and open the liftgate: Press the exterior liftgate release button near the license plate. The intelligent access key also contains a mechanical key blade, which can be used to unlock the driver’s door if necessary. For complete information, refer to the Keys and Remote Control Chapter in your Owner’s Manual.

**MANUAL LIFTGATE**
To open the liftgate manually from outside of your vehicle, press the button located in the top of the liftgate pull handle to unlatch the liftgate, and then pull on the outside handle. You can also use the remote control to open your liftgate. Press the button twice within three seconds. Use the molded handle inside the liftgate to help with closing.

**POWER LIFTGATE®**
You can open the power liftgate from the instrument panel by pressing the button, or with the remote control by pressing the button.

**If the vehicle is running, the liftgate will only operate with the transmission in P (Park). Three warning tones will sound once as the liftgate begins to power close.**

**FIVE SHORT TONES**
indicate a problem with the open or close request, caused when:
- the ignition is on and the transmission is not in P (Park)
- the battery voltage is below the minimum operating voltage
- or the vehicle speed is at or above 3 mph (5 km/h).

**CONVENIENCE**
**110-VOLT ac POWER POINT®**
The power point is located on the rear of the center console and can be used to power your smaller electrical devices that do not exceed 150 watts. This feature is available to use when your ignition is turned on and the battery voltage is above 11 volts. When the indicator light is on, the power point is working and ready to use.

**CARGO STORAGE**
Your vehicle is equipped with two under-floor storage compartments that are located behind the front seats. You can use these compartments to store smaller items discretely. With the lids secured, your items will stay in place while you drive.

**HANDBS-FREE POWER LIFTGATE®**
Open Your Liftgate Hands-free While You Are at the Liftgate
Move your leg toward and under, then away from the rear bumper (similar to a kicking motion). The liftgate will power open or close.

**NOTE** your intelligent access key must be within 3 feet (1 meter) of the liftgate for the “hands-free” open feature to work. The liftgate will not power open or close under specific conditions. Refer to the Locks chapter in your Owner’s Manual for more information.

**SETTING THE LIFTGATE OPEN HEIGHT®**
To Change Your Liftgate Opening Height
1. Open the liftgate.
2. Manually move the liftgate to the desired height.
3. Press and hold the control button on the liftgate until you hear a tone, indicating the new height has been programmed. The new open liftgate height will now be recalled when the power liftgate is opened.

**FIVE SHORT TONES** indicate a problem with the open or close request, caused when:
- the ignition is on and the transmission is not in P (Park)
- the battery voltage is below the minimum operating voltage
- or the vehicle speed is at or above 3 mph (5 km/h).

**MyKey®**
MyKey allows you to program certain driving restrictions in order to promote good driving habits. You can program things like: speed restrictions, limited volume levels and safety belt reminders. For complete information, refer to the MyKey chapter in your Owner’s Manual.

**Remote Start**
To Remote Start Your Vehicle
1. Press the lock button to lock all the doors.
2. Press the remote start button twice. The exterior lamps will flash twice.

**NOTE** If you remote start your vehicle with an integrated keyhead transmitter, you must switch the ignition on before driving your vehicle. If you remote start your vehicle with an intelligent access transmitter, you must press the START/STOP button on the instrument panel once while applying the brake pedal before driving your vehicle. For complete information, refer to the Remote Control chapter in your Owner’s Manual.

**MyKey®**
MyKey allows you to program certain driving restrictions in order to promote good driving habits. You can program things like: speed restrictions, limited volume levels and safety belt reminders. For complete information, refer to the MyKey chapter in your Owner’s Manual.

**110-VOLT AC POWER POINT®**
The power point is located on the rear of the center console and can be used to power your smaller electrical devices that do not exceed 150 watts. This feature is available to use when your ignition is turned on and the battery voltage is above 11 volts. When the indicator light is on, the power point is working and ready to use.

**CARGO STORAGE**
Your vehicle is equipped with two under-floor storage compartments that are located behind the front seats. You can use these compartments to store smaller items discretely. With the lids secured, your items will stay in place while you drive.

**Hands-Free Power Liftgate®**
Open Your Liftgate Hands-free While You Are at the Liftgate
Move your leg toward and under, then away from the rear bumper (similar to a kicking motion). The liftgate will power open or close.

**NOTE** Your intelligent access key must be within 3 feet (1 meter) of the liftgate for the “hands-free” open feature to work. The liftgate will not power open or close under specific conditions. Refer to the Locks chapter in your Owner’s Manual for more information.

**Setting the Liftgate Open Height®**
To Change Your Liftgate Opening Height
1. Open the liftgate.
2. Manually move the liftgate to the desired height.
3. Press and hold the control button on the liftgate until you hear a tone, indicating the new height has been programmed. The new open liftgate height will now be recalled when the power liftgate is opened.

**Five short tones** indicate a problem with the open or close request, caused when:
- the ignition is on and the transmission is not in P (Park)
- the battery voltage is below the minimum operating voltage
- or the vehicle speed is at or above 3 mph (5 km/h).

**Remote Start**
To Remote Start Your Vehicle
1. Press the lock button to lock all the doors.
2. Press the remote start button twice. The exterior lamps will flash twice.

**NOTE** If you remote start your vehicle with an integrated keyhead transmitter, you must switch the ignition on before driving your vehicle. If you remote start your vehicle with an intelligent access transmitter, you must press the START/STOP button on the instrument panel once while applying the brake pedal before driving your vehicle. For complete information, refer to the Remote Control chapter in your Owner’s Manual.

**MyKey®**
MyKey allows you to program certain driving restrictions in order to promote good driving habits. You can program things like: speed restrictions, limited volume levels and safety belt reminders. For complete information, refer to the MyKey chapter in your Owner’s Manual.

**110-VOLT AC POWER POINT®**
The power point is located on the rear of the center console and can be used to power your smaller electrical devices that do not exceed 150 watts. This feature is available to use when your ignition is turned on and the battery voltage is above 11 volts. When the indicator light is on, the power point is working and ready to use.

**CARGO STORAGE**
Your vehicle is equipped with two under-floor storage compartments that are located behind the front seats. You can use these compartments to store smaller items discretely. With the lids secured, your items will stay in place while you drive.

**Hands-Free Power Liftgate®**
Open Your Liftgate Hands-free While You Are at the Liftgate
Move your leg toward and under, then away from the rear bumper (similar to a kicking motion). The liftgate will power open or close.

**NOTE** Your intelligent access key must be within 3 feet (1 meter) of the liftgate for the “hands-free” open feature to work. The liftgate will not power open or close under specific conditions. Refer to the Locks chapter in your Owner’s Manual for more information.

**Setting the Liftgate Open Height®**
To Change Your Liftgate Opening Height
1. Open the liftgate.
2. Manually move the liftgate to the desired height.
3. Press and hold the control button on the liftgate until you hear a tone, indicating the new height has been programmed. The new open liftgate height will now be recalled when the power liftgate is opened.

**Five short tones** indicate a problem with the open or close request, caused when:
- the ignition is on and the transmission is not in P (Park)
- the battery voltage is below the minimum operating voltage
- or the vehicle speed is at or above 3 mph (5 km/h).
**Folding the Rear Seat Back**

To Fold the Rear Seat Back

1. Fold the outboard head restraints and lower the center head restraint.
2. Pull the lever up to fold the seatback forward.
3. To unfold the seatback, simply pull up on the seatback to raise it to the upright position.

**Dual Climate Controls**

With the dual climate controls, you have the flexibility to operate the temperature with one control, called mono mode, or two, where both driver and front passenger can select independent temperatures using their own rotary dials.

To operate the dual temperature control: Use the rotary control on the passenger's side. Mono mode automatically shuts off.

To return back to mono mode: Press and hold the AUTO button. The passenger's side temperature automatically adjusts to the driver's side temperature setting, and both sides will then remain linked to the driver's control.

**Panel Roof with Sunshade**

The sun shade controls are located on the overhead console. The sun shade has a one-touch open and close feature. To stop motion during one-touch operation, press the control a second time.

*Opening and Closing the Sun Shade*

Fully press and release the front of the control to open the sun shade. Fully press and release the rear of the control to close the sun shade. For more complete information, see the Windows and Mirrors chapter of your Owner's Manual.

**Tilting Front-Row Head Restraints**

The front head restraints may have a tilting feature for extra comfort.

To Tilt the Head Restraint, Do the Following

1. Adjust the seatback to an upright driving or riding position.
2. Pivot the head restraint forward toward your head to the desired position. After the head restraint reaches the forward-most position, pivot it forward again to release it to the rearward, un-tilted position.

**Interior Lamps**

The lamps will switch on when you open any door, press a remote control button or press on the overhead control. Press to disable the interior lamps when you open any door. The door function indicator “lamp will illuminate yellow.

Press again to turn the interior lamps back on. The indicator lamp will illuminate blue.

Press to switch all lamps on and off.

**Ambient Lighting**

Illuminate the interior with a choice of several colors by using the ambient lighting feature. The ambient lighting controls are located in the overhead console.

*Color Palette:* Press to cycle through the various color choices.

*Control Knobs:* Turn the knob past the first detent to switch ambient lighting on and adjust the brightness.

*Search Mode:* Press to switch on all interior lamps and ambient lighting. Press again to turn the interior lamps off.

The ambient lighting switches on when you switch the ignition and the headlamps on. The ambient lighting will remain on until you switch the ignition off and either lock your vehicle, or allow the accessory delay timer to expire.
THE FORWARD® AND REVERSE® SENSING SYSTEMS

Sounds an audible warning tone if there is an obstacle near the vehicle’s front or rear bumpers. As the vehicle moves closer to the obstacle, the rate of the warning tone increases in frequency. See the Parking Aids chapter in your Owner’s Manual for complete information on your vehicle’s sensing systems.

TIRE MOBILITY KIT

C-MAX Hybrid is equipped with a tire mobility kit that is located under the front passenger seat. It consists of an air compressor to reinflate the tire and a sealing compound in a canister that will seal most punctures caused by nails or similar objects. See the Wheels and Tires section of your Owner’s Manual for more details.

EASY FUEL® SYSTEM

With this system, you simply spin the fuel door, insert the nozzle and begin fueling. It is self-sealing and therefore protected against dust, dirt, water, snow and ice. Wait 10 seconds from the time the refueling nozzle is shut-off until you remove the nozzle from the vehicle to allow residual fuel in the nozzle to drain into the tank.

NOTE

When refilling with a portable container, only use the funnel that comes with your vehicle. Do not use aftermarket funnels as they will not work with the Easy Fuel system and may cause damage. Extra funnels can be purchased from your authorized dealer.

roadside assistance

Your new Ford vehicle comes with the assurance and support of 24-hour emergency roadside assistance. To receive roadside assistance in the United States, call 1-800-241-3673. In Canada, call 1-800-665-2006.

TOWING YOUR VEHICLE

Towing your vehicle behind another vehicle (such as an RV) may be limited. Refer to Towing the Vehicle on Four Wheels in the Towing chapter of the Owner’s Manual.

TIRE PRESSURE MONITORING SYSTEM

Your vehicle illuminates a low tire pressure warning light in your instrument cluster when one or more of your tires are significantly underinflated. If this happens, stop and check your tires as soon as possible. Inflate them to the proper pressure. Refer to the Inflating Your Tires section in the Wheels and Tires chapter of your Owner’s Manual for more information.

parking aids

ACTIVE PARK ASSIST®

Can detect an available parallel parking space and automatically steer the vehicle into that space (hands-free) while you control the accelerator, gearshift and brakes. The system visually and audibly instructs you to park the vehicle.

» To start active park assist, press the button located in the instrument panel below the audio system.

» To stop the parking procedure, grab the steering wheel or press the control again. For complete information, refer to the Parking Aids chapter of your Owner’s Manual.

NOTE

Visibility aids do not replace the need to watch where the vehicle is moving. Refer to your Owner’s Manual for safety information, more details and limitations.

REAR VIEW CAMERA®

Provides a video image of the area behind the vehicle. The display automatically appears in the touchscreen when the vehicle is in R (Reverse) and uses colored guides to alert you of your proximity to objects.

FUEL TANK CAPACITY/ FUEL INFO

C-MAX Hybrid has a 13.5 gallon (51.1L) fuel tank capacity in addition to its high-voltage battery system. Use only UNLEADED fuel or UNLEADED fuel blended with a maximum of 15% ethanol. Do not use ethanol blends (E85), diesel, fuel-methanol, leaded fuel or any other fuel because it could damage or impair the emission control system.

Towing your vehicle (such as an RV) may be limited. Refer to Towing the Vehicle on Four Wheels in the Towing chapter of the Owner’s Manual.

The FORWARD® and reverse® sensing systems sounds an audible warning tone if there is an obstacle near the vehicle’s front or rear bumpers. Since the vehicle moves closer to the obstacle, the rate of the warning tone increases in frequency. See the parking aids chapter in your owner’s manual for complete information on your vehicle’s sensing systems.

TIRE MOBILITY KIT

C-MAX Hybrid is equipped with a tire mobility kit that is located under the front passenger seat. It consists of an air compressor to reinflate the tire and a sealing compound in a canister that will seal most punctures caused by nails or similar objects. See the wheels and tires section of your owner’s manual for more details.

With this system, you simply spin the fuel door, insert the nozzle and begin fueling. It is self-sealing and therefore protected against dust, dirt, water, snow and ice. Wait 10 seconds from the time the refueling nozzle is shut-off until you remove the nozzle from the vehicle to allow residual fuel in the nozzle to drain into the tank.

When refilling with a portable container, only use the funnel that comes with your vehicle. Do not use aftermarket funnels as they will not work with the easy fuel system and may cause damage. Extra funnels can be purchased from your authorized dealer.

Note

Visibility aids do not replace the need to watch where the vehicle is moving. Refer to your owner’s manual for safety information, more details and limitations.

Can detect an available parallel parking space and automatically steer the vehicle into that space (hands-free) while you control the accelerator, gearshift and brakes. The system visually and audibly instructs you to park the vehicle.

» To start active park assist, press the button located in the instrument panel below the audio system.

» To stop the parking procedure, grab the steering wheel or press the control again. For complete information, refer to the parking aids chapter of your owner’s manual.

Your vehicle illuminates a low tire pressure warning light in your instrument cluster when one or more of your tires are significantly underinflated. If this happens, stop and check your tires as soon as possible. Inflate them to the proper pressure. Refer to the inflating your tires section in the wheels and tires chapter of your owner’s manual for more information.

Your new ford vehicle comes with the assurance and support of 24-hour emergency roadside assistance. To receive roadside assistance in the united states, call 1-800-241-3673. In canada, call 1-800-665-2006.

Towing your vehicle behind another vehicle (such as an RV) may be limited. Refer to Towing the vehicle on four wheels in the towing chapter of the owner’s manual.
