10

(EN) If adding a Trailer Tow Wiring Kit install it before reinstalling the Rear Bumper Cover.

(E) Si desea instalar un kit de cableado de remolque, hágalo antes de volver a instalar el protector de parachoques trasero.

(F) Si un nécessaire de câblage d'attelage de remorque est ajouté, l'installer avant de réinstaller le couvercle de pare-chocs arrière.

11

12

(EN) Using Acetone, clean the edge of the cap and the underside of the bumper cover step pad where the cap will mate with the cover. Allow to dry for 2 minutes.

(E) Al usar acetona, limpie el borde de la tapa y la parte inferior del protector del estribo de la cubierta del parachoques en donde la tapa se acoplará con la cubierta. Permita que se seque por 2 minutos.

13 (F) Avec de l'acétone, nettoyer le bord du capuchon et le dessous du marchepied de couvercle du pare-chocs où le capuchon s'ajuste avec le couvercle. Laisser sécher 2 minutes.

(EN) Install the cap into the bumper cover step pad, make sure to align the cap with the bumper cover step pad features.

(E) Instale la tapa en el protector del estribo de la cubierta del parachoques, asegúrese de alinear la tapa con las características del protector del estribo de la cubierta del parachoques.

(F) Installer le capuchon dans le marchepied de couvercle du pare-chocs, veiller à aligner le capuchon avec les éléments du marchepied de couvercle du pare-chocs.

14

(EN) Tape the cap to the bumper cover step pad, to keep alignment.

(E) Encinte la tapa al protector del estribo de la cubierta del parachoques para mantener la alineación

(F) Coller le capuchon sur le marchepied de couvercle du pare-chocs avec du ruban adhésif pour conserver l'alignement.

15

- (EN) Using a propane torch, allow the tip of the flame to contact the bumper cover step pad and cap, always in a quick back and forth motion, never stopping, for 2 seconds.
- (E) Con una antorcha de propano, permita que la punta de la llama entre en contacto con el protector del estribo de la cubierta del parachoques y la tapa, siempre en un movimiento hacia adelante y atrás de manera rápida, sin dejar de moverse y por 2 segundos.
- (F) Avec un chalumeau au propane, laissez la pointe de la flamme entrer en contact avec le marchepied de couvercle du pare-chocs et le capuchon, toujours par un va-et-vient rapide sans s'arrêter, pendant 2 secondes.

16

- (EN) Apply a 1/8 in (3 mm) bead of Motorcraft® TA-9 adhesive where the cap and the bumper cover meet. Do not twist or bend the bumper cover step pad. Allow the adhesive to cure for 90 minutes before reinstalling the bumper cover step pad.
- (E) Aplique un cordón de 1/8 in (3 mm) del adhesivo Motorcraft® TA-9 en donde se tocan la tapa y la cubierta del parachoques. No gire ni doble el protector del estribo de la cubierta del parachoques. Permita que el adhesivo se cure por 90 minutos antes de reinstalar el protector del estribo de la cubierta del parachoques.
- (F) Appliquer un cordon de 3 mm (1/8 po) d'adhésif Motorcraft® TA-9 à l'endroit où le capuchon et le couvercle de pare-chocs se touchent. Ne pas tordre ou déformer le marchepied de couvercle du pare-chocs. Laisser sécher l'adhésif pendant 90 minutes avant de reposer le marchepied de couvercle du pare-chocs.

17

18

22

- (EN) Save clips for installation.
- (E) Guarde las presillas para la instalación.
- (F) Conserver les agrafes pour la pose.

23

24

28

- (EN) Align the Christmas tree retainers. If retainers don't seat correctly and or bend, step pad will not seat fully.
- (E) Alinee los retenes cónicos. Si los retenes no se sientan de manera correcta o se doblan, el protector del estribo no se sentará correctamente.
- (F) Aligner les retenues en arêtes de poisson. Si les retenues ne se fixent pas correctement et/ou se tordent, le marchepied ne s'ajuste pas complètement.

29

30

- (EN) Use hand pressure to seat the trim pieces. Ensure no gaps are present.
- (E) Utilice presión manual para asentar las partes de las molduras. Asegúrese de que no haya separaciones
- (F) Appuyer avec les mains pour aligner les pièces de garniture. S'assurer qu'aucun écartement n'est présent.

31

32

33

(EN) If equipped, secure the 4 pin connector to the wire harness using tie-straps.

(E) De estar equipado, asegure el conector de 4 clavijas al mazo de cables con precintos.

(F) Le cas échéant, fixer le connecteur 4 broches au faisceau de câbles avec des sangles.

Carry out the azimuth and elevation system checks.

Refer to: Azimuth System Check (413-13A Parking Aid, General Procedures).

Refer to: Elevation System Check (413-13A Parking Aid, General Procedures).

If any sensor fails the system checks, diagnose the sensor fault. Refer to: Parking Aid (413-13A Parking Aid, Diagnosis and Testing).

Realice los controles del sistema azimutal y de elevación.

Consulte: Control del sistema azimutal (413-13A Asistencia en el estacionamiento, procedimientos generales).

Consulte: Control del sistema de elevación (413-13A Asistencia en el estacionamiento, procedimientos generales).

Si alguno de los sensores no pasa los controles del sistema, realice un diagnóstico de fallas de los sensores. Consulte: Asistencia en el estacionamiento (413-13A Asistencia en el estacionamiento, diagnósticos y pruebas).

Effectuer les contrôles du système d'azimut et d'élévation.

Voir : Contrôle du système d'azimut (413-13A Assistance au stationnement, Procédures générales).

Voir : Contrôle du système d'élévation (413-13A Assistance au stationnement, Procédures générales).

Si n'importe quel capteur échoue lors des contrôles du système, diagnostiquer le défaut de ce capteur. Voir : Assistance au stationnement (413-13A Assistance au stationnement, Diagnostic et test).
