

WARNING

Driving while distracted can result in loss of vehicle control, crash and injury. We strongly recommend that you use extreme caution when using any device that may take your focus off the road. Your primary responsibility is the safe operation of your vehicle. We recommend against the use of any hand-held device while driving and encourage the use of voice-operated systems when possible. Make sure you are aware of all applicable local laws that may affect the use of electronic devices while driving.

Quick Reference Guide

WARRANTY INFORMATION:

Your vehicle comes with a New Vehicle Limited Warranty. The express warranties of the New Vehicle Limited Warranty are in substitution for and exclude all other liabilities of any kind whether arising under statute, in tort, by implication of law or otherwise including, to the full extent as may be allowed by law, liability for any other representations respecting the vehicle, statutory warranties or implied warranties or conditions as to its merchantability or fitness.

Download a FREE electronic copy or order one FREE printed copy of the most up-to-date Warranty Guide by visiting the Owner Manuals section of [owner.lincoln.com](https://www.owner.lincoln.com). (United States)

For Canada, visit [lincolncanada.com/warranty](https://www.lincolncanada.com/warranty).

FOR LIMO/LIVERY/HEARSE VEHICLES:

View and download your Warranty Guide by visiting the Warranty Information section of the Fleet website, [fleet.ford.com/limo](https://www.fleet.ford.com/limo). (United States only)

UNITED STATES

Lincoln Way App

CANADA

Sykes4Lincoln Roadside App

The Lincoln Way App and the Sykes4Lincoln Roadside App are available via the Apple App Store® or Google Play™.

The Lincoln Way™

Our unique range of services is designed to make your Lincoln ownership effortless.

Lincoln Way™ App

Download the Lincoln Way app to your mobile device and activate Lincoln Connect to enjoy services and features including:

- ▶ Complimentary remote features including start/stop, lock/unlock and scheduled starts.¹
- ▶ Available Phone As A Key ² lets your smartphone act as a remote control even if you leave your keys behind.
- ▶ Access and monitor your vehicle's health, oil life, tire pressure and more.
- ▶ Select your Preferred Dealer to effortlessly schedule a service time and place convenient for you.
- ▶ Earn Points toward Lincoln Priority Service and exclusive experiences with Lincoln Access Rewards™. ³

Lincoln Pickup & Delivery

Schedule your Pickup & Delivery appointment through the Lincoln Way app⁴ or by phone, and we'll do the rest. We'll pick up your vehicle and leave you a complimentary Lincoln loaner ⁵ during your appointment, so you never lose a second of your personal time. Your Lincoln is delivered back to you washed and ready for your next journey when service is finished.

Lincoln Concierge

Lincoln Concierge is your 24/7 personal connection for the latest information about Lincoln vehicles, services and ownership benefits. Simply choose how you'd like to connect and a highly trained Lincoln Concierge team member will help you explore Lincoln in the way that suits you best.

- ▶ You can reach us any time of day or night by calling **800-521-4140**.
- ▶ Chat with us online at **lincoln.com**.
- ▶ Connect through the Lincoln Way app.

Roadside Assistance for Life**

We've got you covered 24/7 – no matter where, no matter when. Whether you're locked out of your Lincoln, have a flat tire, drained battery or you simply ran out of gas, use the Lincoln Way app or give us a call.

Our caring agents are empowered to handle your call and concerns from beginning to end.

Join us in Conversation

¹ Lincoln Connect (standard on select vehicles), and complementary connected service are required for remote features (see Lincoln Way terms for details). Connected services and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent the operation of connected features. Connected services excludes Wi-Fi hotspot.

² Available on select vehicles. Requires feature activation.

³ See dealer for details.

⁴ Available via a download and compatible with select smartphone platforms. Message and data rates may apply.

⁵ Complimentary Lincoln Pickup & Delivery Service is available for all 2017 model year and newer Lincoln vehicles with the 4-year/50,000 mile New Vehicle Limited Warranty. Contact your preferred dealer for **important** details. Mileage limitations may apply.

**Roadside assistance for life is only available for model-year 2013 and newer for the original owner.

Essential Features

Tire Pressure Monitoring System

The tire pressure monitoring system allows you to view tire pressure readings through the instrument cluster. When a tire is underinflated, the warning light in the instrument cluster illuminates. If this occurs, stop, check, and inflate the affected tire to the proper pressure as soon as possible. Refer to the **Tire Pressure Monitoring System** chapter of your **Owner's Manual** for more information.

Refueling

When refueling your vehicle:

1. Make sure the ignition is switched off.
2. Open the fuel door.
3. Fully insert the fuel pump nozzle into the fuel system, leaving the nozzle inserted until you are done pumping.
4. Make sure the fuel pump nozzle is level when refueling, or it may impact the fuel flow. Improper positioning can also cause the fuel pump to shut off before the fuel tank is full.

5. When you finish refueling, slowly remove the fuel pump nozzle and close the fuel door.

If you are refilling your tank from a fuel container, make sure you use the fuel filler funnel included with your vehicle. Using an aftermarket funnel may not work with the capless system and could cause damage to your vehicle. For more information and fuel filler funnel location, please see the **Fuel and Refueling** chapter of your **Owner's Manual**.

Fuel Type and Fuel Tank Capacity

Navigator has a 23.6 gal (89.3 L) fuel tank capacity, Navigator L model is 27.8 gal (105.2 L). We recommend regular unleaded gasoline or an unleaded fuel blend with up to 15% ethanol with a pump (R+M)/2 octane rating of 91 minimum. Do not use any other fuel because it could damage or impair the emission control system.

Trailer Sway Control

Applies your vehicle brakes at individual wheels and, if necessary, reduces engine power. If the trailer begins to sway, the light flashes and the message **TRAILER SWAY REDUCE SPEED** appears in the instrument cluster display. Slow down your vehicle, then pull safely off the road to check for proper tongue and trailer load distribution. See the **Trailer Sway Control** chapter in your **Owner's Manual** for specific loading information.

Location of Spare Tire and Tools

The spare tire is under the vehicle, forward of the rear bumper. This dissimilar spare is designed for emergency use only and should be replaced as soon as possible. The jack and tools are under the access panel in the floor compartment behind the third row seat. Please refer to the **Wheels and Tires** chapter of your **Owner's Manual**.

Note: Make sure you switch off the power running boards prior to jacking, hoisting, or towing your vehicle.

Lincoln Way App

LEARN MORE ABOUT YOUR NEW VEHICLE

Scan the country-appropriate QR code with your smartphone (make sure you have a scanner app installed), and you can access even more information about your vehicle.

Instrument Panel

1 Center Display

2 Push Button Ignition

To turn on your vehicle, touch the **START STOP** button while pressing down the brake pedal. Turn the engine off by pressing the **START STOP** button. The vehicle can idle for a short amount of time before it shuts down automatically. Before idle engine shutdown, a message appears in the instrument cluster display.

Note: A valid key must be inside the vehicle for the ignition to start.

3 Autowipers

The autowiper system turns the wipers on when moisture is present on the windshield. Use the rotary control to adjust the sensitivity of the autowipers. When you select low sensitivity, the wipers operate when the sensor detects a large amount of water on the windshield. When you select high sensitivity, the wipers operate when the sensor detects a small amount of water on the windshield. Autowipers default to on unless you switch them off in the touchscreen.

4 Power Adjustable Steering Column*

Use the control on the side of the steering column to adjust the position.
To tilt: Press the top or bottom of the control.
To telescope: Press the front or rear of the control.

5 Adaptive Cruise Control*

Standard cruise control buttons are shown. Adaptive cruise control adjusts your speed to maintain a set distance between your vehicle and the vehicle in front of you in the same lane. You can select four gap settings by pressing \updownarrow on the steering wheel. The system can also bring your vehicle to a temporary stop and resume going forward in stop-and-go traffic.

Refer to the **Adaptive Cruise Control** chapter in your **Owner's Manual** for safety information, details, and limitations.

6 Trailer Backup Assist and Trailer Reverse Guidance*

Trailer backup assistance utilizes the control knob on the instrument panel to help you steer a trailer, while trailer reverse guidance provides views and graphics on the touchscreen to help you steer your vehicle when you back up a trailer. This system does not work until you set it up. See the Pro Trailer Backup Assist Quick Start Guide in your Owner's Manual portfolio for the complete guide.

7 Hazard Flashers

8 Automatic Transmission

Putting your vehicle in or out of gear:

1. Press the brake pedal.
2. Select the desired gear.

Note: The position illuminates on the transmission selector.

- 9 **Lighting Control**
- Switches on the headlamps.
- Autolamps: Turns the headlamps on and off based on available daylight.
- Switches on the parking lamps.
- Switches off the headlamps.
- 10 **Liftgate Release**
- Press and release the button to open/close the power liftgate.

- 11 **Adjustable Pedals***
- Your power-adjustable pedal control allows you to move your brake and accelerator pedals.
- Press to move the pedals away from you, or to move the pedals closer.
- Note:** Adjust the pedals only when the transmission is in park (P).
- 12 **Heated and Ventilated Seats**
- The heated and ventilated seats only function when the engine is on. Press the or controls. More lights indicate warmer or cooler settings.
- 13 **Power Points***
- There may be several different power points in your vehicle: 12-Volt DC, 110-Volt AC, and USB ports.
- 14 **Wireless Accessory Charger***
- This feature supports Qi wireless charging compatible devices when the vehicle is on, in accessory mode, or if SYNC 4 is on. To begin charging, place the device in the port with the charging side down. Charging stops when the device reaches full charge. You can only charge one device at a time on the charging area. For more information, see the **Wireless Accessory Charger** chapter of your **Owner's Manual**.

- 15 **Electric Parking Brake**
- The electric parking brake switch replaces the conventional hand brake. To apply, pull up the switch. The brake system warning lamps flash then illuminate to confirm you applied the parking brake. To release manually, switch the ignition on, press the brake pedal, then press down. The brake system warning lamp turns off. Your vehicle automatically releases the parking brake when the driver door is closed, the transmission is in a forward or reverse gear, and you press the accelerator pedal.
- Note:** If the electric parking brake warning lamp stays on, the electric parking brake did not automatically release. Release the electric parking brake using the switch.

- 16 **Auto Hold**
- Auto hold can assist you while stopping at traffic lights or while in traffic by holding the brakes when you stop the vehicle. You can switch the system on or off by pressing the button on the center console. When you press the accelerator pedal, auto hold automatically releases the brakes. In certain situations, auto hold may apply the electric parking brake and illuminate the brake warning lamp in the instrument cluster.
- See the **Auto Hold** chapter of your **Owner's Manual** for more details.
- 17 **Drive Mode Control**
- Drive modes optimize steering, handling, and powertrain response. The system tailors your vehicle configuration for the drive mode you select. Use the **DRIVE MODE** knob to change your drive mode settings.
- Note:** Drive mode changes are not available when the ignition is off.
- **Normal:** For effortless and balanced driving.

► **Normal 4A:** For confident and secure driving (4x4 only).

► **Conserve:** Enables efficient driving.

► **Excite:** For responsive and engaging driving.

► **Slippery:** For slick, icy or loose surfaces, such as snow- or ice-covered roads.

► **Deep Conditions:** Provides deep sand or mud assistance.

► **Slow Climb*:** Used when you need low-speed power and control.

Phone as a Key

You can set up your phone as an intelligent access key allowing you to lock, unlock, start and drive your vehicle using the Lincoln Way app. Visit your device's app store or our website for more information about the Lincoln Way app.

Steps to Activate Phone as a Key

You must be near your vehicle during setup.

To set up Phone as a Key:

1. Download the Lincoln Way app.
2. Activate Lincoln Connect (visit owner.lincoln.com for more information).
3. There are two entry points to begin phone as a key setup.
 - A. Select the **Controls** button on the home screen.
 - B. Select the **Phone as a Key Setup Required** tab on the Vehicle Details screen.
4. Input your Lincoln Way app user name and password.
5. Name your new key.
6. The key downloads to the Lincoln Way app.

Pair the Smartphone with the Vehicle

1. The Lincoln Way app displays a passcode to establish a Bluetooth® connection. Select **Copy and Continue** to save the passcode.
2. Enter or paste the passcode previously copied into the pop-up on your device.
3. A screen pops up to ask how to access your location.

Important: You must select Always Allow if you'd like to keep the Lincoln Way app running in the background at all times. If you choose Only While

Using the App, you must then open the app and have it on your screen to connect with the vehicle.

4. When pairing is complete, a confirmation displays on the screen.

Create a Backup Start Passcode (Recommended)

1. Make sure the remote control is nearby for setup.
2. Select **Yes** on the SYNC screen when prompted for Backup Start Passcode.
3. Select the phone you would like to use for the Backup Start Passcode on the SYNC screen. This step is skipped if only one phone as a key device is in the vehicle.
4. Choose a code of at least five alphanumeric or eight-digit combination of numbers that you will remember. Re-enter, then select **Done**.

Create a Personal Door Keypad Code

1. Once a Backup Start Passcode is created, you can add a personal door keypad code in addition to the Master Door Keypad Code.
2. Select **Create a New Keypad Code** on the touchscreen.
3. Enter a five-digit personal keypad code twice.
4. The touchscreen displays a message stating the code was created successfully.

What to Do If You Have Lost Your Smartphone or Your Phone Battery Is Dead

1. Enter the Personal Door Keypad Code that was created during setup.
2. Upon entry, start the vehicle by pressing the brake and the ignition button. Wait for 10-15 seconds for screen animations to finish, then press the brake and the ignition button again.
3. Enter the Backup Start Passcode (this is the code of at least five alpha-numeric or eight-digit numbers you created when setting up the Phone As A Key).
4. Press the brake and push button ignition one final time to drive away in your vehicle.

How Do I Use My Vehicle at a Valet?

1. Open Valet Mode in the Settings menu of the touchscreen. Your backup start passcode must be set up in order to use Valet Mode.
2. Touchscreen displays a temporary valet passcode, and a notification is sent to your smartphone.

Write down the passcode on the black card and give it to the valet attendant in order to:

- ▶ Activate the keypad, swipe with your hand on the black-plated door trim just above the driver door handle.
- ▶ Lock the doors. Press **7-8** and **9-0** simultaneously on the black-plated door trim just above the driver door handle outside the vehicle.
- ▶ Unlock the doors. The valet should use the first five digits of the temporary passcode by entering them on the keyless entry keypad on the driver door.

- ▶ Start the engine. The touchscreen requests the valet enter all eight digits of the temporary passcode.

Once the valet delivers the vehicle, the touchscreen displays an **Exit Valet Mode** button and scans for the virtual key.

The temporary passcode is then deleted and does not work again. You can then use your phone as a key as usual.

Please refer to owner.lincoln.com for more information on how to use if you do not have a remote control or phone as a key device.

For more information, see the **Phone as a Key** chapter of your **Owner's Manual** or scan the QR code.

Voice interaction allows you to control vehicle features using conversational requests.

To begin a voice interaction, you can either:

- ▶ Press the voice interaction button on the steering wheel.
- ▶ Say the selected wake word.

Once you have started a voice interaction, speak to the system in a conversational manner. Some examples include:

General Examples

- ▶ Start Over.
- ▶ Cancel.
- ▶ Help.

Climate Examples

- ▶ Set the temperature to low.
- ▶ Set the temperature to 65 degrees.

App Examples

- ▶ Mobile Apps.
- ▶ List Mobile Apps.
- ▶ Find Mobile Apps.

Navigation Examples

- ▶ Drive to 1 American Road in Dearborn, Michigan.
- ▶ Show me directions to Oakwood Boulevard and Pelham Road.
- ▶ Cancel route.

Entertainment Examples

- ▶ Play The Beatles.
- ▶ Show music by The Beatles.
- ▶ Tune to 101.9 FM.

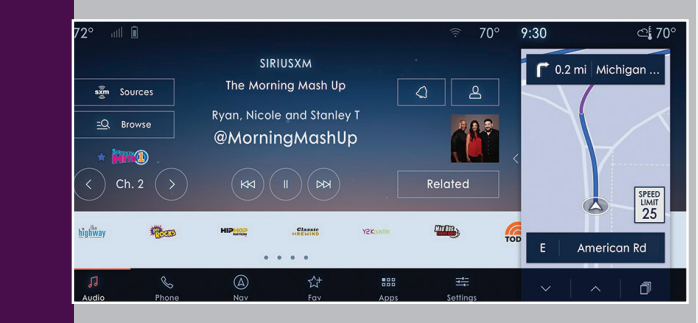

Phone Examples

- ▶ Call Henry.
- ▶ Dial (phone number).
- ▶ Send a text message to Henry.
- ▶ Read my message from Henry.

Some services may not be available in your area. Refer to your **Owner's Manual** on the touchscreen, visit the website or call the toll-free number.

For U.S. customers: visit owner.lincoln.com or call **1-800-521-4140**.

For Canadian customers: visit syncmyride.ca or syncmaroute.ca or call **1-800-387-9333**.

The feature and status bars on your touchscreen allow you to interact with a variety of vehicle features. Voice commands can also be used to access these features.

Speed-restricted Features

For your safety, some functions of the system are speed dependent. Some features of this system may be too difficult to use when your vehicle is moving so they are restricted from use unless your vehicle is stationary. Other features are limited to when your vehicle is traveling at speeds under 5 mph (8 km/h).

Pairing Your Phone for the First Time

Switch on Bluetooth® on your device to begin pairing.

To add a phone:

1. Select the phone  option on the feature bar.
2. Select **Add Phone**.
3. A prompt alerts you to search for the system on your phone.

*if equipped

4. Select your vehicle on your phone.
5. Confirm that the PIN (personal identification number) on your cell phone matches the number on the touchscreen.
6. The touchscreen indicates when the pairing is successful.
7. Download the phonebook from your phone when you are prompted.

Phone Menu

To make calls, select from your contacts, recent calls or dial the number on the phone keypad. You can also adjust phone settings, change devices or place your device in Do Not Disturb mode. The Do Not Disturb mode rejects all incoming calls and switches off ringtones and alerts.

Receiving Calls

To accept the call, select **Accept** on the touchscreen or press the phone button on the steering wheel.

To reject the call, select **Reject** on the touchscreen.

During a Phone Call

When you take a phone call, the screen displays the contact's name and number, the call duration and the phone signal strength and battery. You can also select End Call, Keypad, Mute or Privacy during the call. Selecting privacy transfers the call to your cell phone.

Text Messages

The system can receive and notify you of text messages. You can use the touchscreen to select to hear or see the text messages, call the sender or reply to the text message. You can switch text message notifications on and off in Settings menu. For more information, please see the **Phone** chapter of your **Owner's Manual**.

Apps

The first time you start an app through the system, you could be asked to grant certain permissions. Some apps work with no setup. Others require you to configure some personal settings before you can use them. To access the apps, select the apps option on the feature bar.

Apple CarPlay® and Android Auto™

To use Apple CarPlay and Android Auto, pair your device and follow the instructions on the touchscreen. Certain system features are not available when you are using Apple CarPlay or Android Auto.

Android Auto may need to be enabled from the Settings menu. You can switch Apple CarPlay or Android Auto off through the Settings menu. See the **Apps** chapter of your **Owner's Manual** for more information.

Information on Demand Screen*

You can use the following controls to navigate the Information on Demand screen:

-  Press the button to view the next Information on Demand screen.
-  Press the button to view the previous Information on Demand screen.
-  Press the button to view the Information on Demand screen card view.

Performing a Master Reset

Press the Settings option on the feature bar:

1. Press **General**.
2. Press **Reset**.

3. Press **Master Reset**.
4. Follow the prompts on the screen to complete the reset.

Navigation

You can set your destination using the text entry or map screen. Using text entry, enter your destination using the keyboard on the touchscreen. Press Search and select the destination from the list on the screen. Press Start to begin navigation.

Using the map screen, press and hold a location on the map to place a pin. Press the  button to begin the route guidance.

Through the menu button, change the format of the map, switch live traffic on and off, update the map and navigate to a recent destination or saved destination. During route guidance, you can adjust the guidance prompt volume by turning the volume control when a guidance prompt plays. To repeat an instruction, press the turn indicator. To cancel route guidance, press the  button.

Lincoln Embrace automatically illuminates and adjusts personalized areas of your vehicle as you approach or leave your vehicle.

Welcome Lighting

Welcome lighting slowly turns on the exterior lamps when you approach your vehicle with an authenticated device or unlock the doors.

Auto-Folding Exterior Mirrors

Auto-folding exterior mirrors automatically fold when you lock the vehicle. The mirrors return to the original position automatically when you unlock the vehicle. The mirrors can fold open or closed on demand by pressing  on the door.

Easy Entry and Exit

When the vehicle ignition is switched off, the driver seat moves back up to 2 in (5 cm) and the power tilt and telescoping steering wheel moves to the full up position. The driver seat and steering column return to the previous position when you switch the ignition on.

Vehicle System Updates

You can update your vehicle system wirelessly by making sure Vehicle Connectivity and Automatic System Updates are switched on. When an update is available, tap the notification icon and follow the on-screen prompt. To make sure you receive all updates, set a recurring schedule and connect to Wi-Fi. Updates may take longer if not connected to Wi-Fi, or may not download at all.

CONNECTED VEHICLE

A connected vehicle has technology that allows your vehicle to connect to a mobile network and to access a range of features. When used in conjunction with the Lincoln Way app, this technology allows you to monitor and control your vehicle further, for example, checking the tire pressures, the fuel level and the vehicle location. For additional information, refer to the local Lincoln Way website.

The modem has a SIM. The modem was enabled when your vehicle was built and periodically sends messages to stay connected to the cell phone network, receive automatic software updates and send vehicle-related information to us, for example, diagnostic information. These messages could include information that identifies your vehicle, the SIM and the electronic serial number of the modem. Cell phone network service providers could have access to additional information, for example, cell phone network tower identification. For additional information about our privacy policy, refer to your local Lincoln website.

Power Running Boards

When you switch approach detection on with auto switched on, the running boards deploy when you approach your vehicle with a remote control. Power running boards return to the stowed position after you close the doors. Deployment is configurable in the touchscreen. For more information, refer to the **Power Running Boards** chapter in your **Owner's Manual**.

*if equipped

Power Front Seats*

1. Memory Function
Memory function allows a one-touch recall of personalized features including driver seat, power mirrors, adjustable pedals, and power steering columns. To adjust memory features, turn the ignition on and use the controls on the driver door. Press and hold the desired preset button until you hear a single tone. You can now recall the set memory position.

See the **Seats** chapter in your **Owner's Manual** for more details.

2. Power Front Head Restraint
The four-way control adjusts the height and angle of the front head restraints.

3. Seat Backrest
Press forward or backward to adjust the upper seat backrest in the corresponding direction.

4. Power Front Seats
Adjusts seat height and moves the seat forward and backward.

5. Seat Cushion Length Adjustment
Press **<L L>** to adjust the left side of the cushion, or **<R R>** to adjust the right.

6. Lumbar Support
Press + to increase or – to decrease lumbar support.

Comfort

Power Folding Rear Seats
The control buttons are on the left-hand rear quarter trim panel (accessible from the liftgate area). Press the appropriate button to fold the seats.
To return the second-row seat backrest to the original position, rotate the seat backrest up until the seat backrest latches in the upright position. The seat backrest clicks when it is locked into position.
To return the third-row seat backrest to the original position, press the corresponding control again.

Third-Row Power Recline
The third-row power recline buttons are on the quarter trim panel on each side of the vehicle.

Rear Massage Seats*
Adjust this feature through the rear touchscreen. Selecting a different adjustment cancels the current one. When the backrest and cushion are both active, the massage alternates between zones.

Heated and Ventilated Rear Seats
For heated rear seats, press on the center console repeatedly to cycle through the various heat modes and off. For ventilated rear seats, press repeatedly to cycle through the various cooling modes and off.

Note: The heated or ventilated seats function only when the engine is running.

Moonroof*
The one-touch moonroof controls are on the overhead console. To stop movement during one-touch operation, press the control a second time.

- Press and release to open the moonroof. The moonroof stops short of the fully opened position. To open the moonroof fully, press and release the control again.
- Press and release to close the moonroof.
- Press and release to vent the moonroof.
- Press and release to open the sunshade. The sunshade stops short of its fully opened position for the comfort of rear passengers. To open the sunshade fully, press the control again.
- Press and release to close the sunshade.

Power Liftgate

Press  on the instrument panel to open or close the power liftgate. For added convenience, there are more ways to activate your power liftgate's capabilities:

- ▶ On your remote, press  twice to open or close.
- ▶ From the rear, press **A** to open the glass only, press **B** to open the liftgate.
- ▶ Hands-free liftgate operation*: When the remote is within 3 ft (1 m) of the vehicle, use a kick forward/back motion under the rear bumper to either side of the hitch.

Note: A side-to-side swiping motion does not trigger sensors. Allow the power system to open/close the liftgate. The power liftgate includes an obstacle detection feature that reverts to the open position. Manually pushing or

pulling the liftgate may damage that system. See the **Liftgate** chapter of your **Owner's Manual**.

Remote Start

To start the engine from outside the vehicle, press  and then press  twice. Before driving, you must press the **START STOP** button on the instrument panel while pressing the brake pedal. You can turn off your vehicle from outside after a remote start by pressing  once.

MyKey®

MyKey allows you to program speed restrictions and volume levels to promote good driving habits. For complete information, refer to the **MyKey** chapter in your **Owner's Manual**.

Keyless Entry Keypad

The keypad is near the driver window and allows you to lock/unlock the doors without a key. The keypad operates with a five-digit code found on your owner's wallet card or by using a personal code.

To Unlock All Doors

Enter your five-digit code within five seconds.

To Lock All Doors

Press and hold **7-8** and **9-0** at the same time with the door closed. See the **Keyless Entry Keypad** chapter in your **Owner's Manual** for additional details.

Reverse Braking Assist

Reverse braking assist reduces impact damage or avoids a collision completely by using the sensors on the rear of your vehicle. Reverse braking assist functions when your vehicle is in reverse (R) and traveling at a speed of 1–7 mph (1.5–12 km/h). If the system detects an obstacle behind your vehicle, it provides a warning through the rear parking aid or cross traffic alert system.

ActiveGlide™*

ActiveGlide works with adaptive cruise control to keep your vehicle centered in your lane. ActiveGlide must be enabled in the touchscreen. The system monitors your eyes and head position to detect if you are distracted. If the system determines you are distracted, it alerts you to turn your eyes back to the road. The

system only activates when ActiveGlide is enabled in your touchscreen, adaptive cruise control with stop and go is on, the system detects both lane markings, your hands are on the steering wheel and your eyes are on the road. When the system is on, the color of the indicator changes to indicate the system status.

- ▶ **Gray:** the system is on but inactive.
- ▶ **Green:** the system is active and applying continuous assistance steering support.
- ▶ **Blue:** the system is active and hands-free driving support is available.

When the graphic in the instrument cluster shows a wheel with hands on, it is indicating hands-on driving mode is active. When this indicator is present, you must keep your hands on the steering wheel. When the graphic in the instrument cluster changes to a wheel without hands on, it is indicating hands-free driving mode is available. When this indicator is present, you can remove your hands from the steering wheel. For additional system information, settings and limitations, please see your **Owner's Manual**.

Head Up Display*

This is a visual system that shows information in your field of view as you drive. The information comes from various vehicle systems and includes vehicle speed, speed limit, navigation and Advanced Driver Assistance Systems (ADAS), such as Adaptive Cruise Control (ACC) and the lane keeping system. This system projects the information off the windshield and focuses the image near the end of the hood, approximately 7 ft (2 meters) in front of the driver. Viewing this information does not require you to significantly move your head, allowing you to keep your eyes on the road while having quick and easy access to information.

Stability Control and Traction Control with Roll Stability Control

Automatically turns on when you start your engine and helps you maintain control of your vehicle when on a slippery surface. The electronic stability control portion of the system helps avoid skids and lateral slides, and roll stability control helps avoid a vehicle rollover. The traction control system helps avoid drive-wheel spin and loss of traction. See the **Stability Control** chapter in your **Owner's Manual** for details.

Keyless Entry

You can unlock and lock the vehicle without taking the key out of your pocket or bag when your intelligent access key is within 3 ft (1 m) of your vehicle. To unlock, touch the unlock sensor on the back of any door handle for a brief period and then pull on the door handle, being careful to not touch the lock sensor at the same time or pull the door handle too quickly. To lock, touch the door handle lock sensor on any door for approximately one second, being careful to not touch the unlock sensor on the back of the door handle at the same time.

Technology (continued)

Personal Profiles

You can personalize positional settings such as seats and mirrors, as well as non-positional settings such as radio, navigation, driver assist and system settings. You can use this menu to edit, link, unlink and rename a remote control. You can also delete any personal profiles. For more information, see the **Personal Profiles** chapter in your **Owner's Manual**.

Manually Shifting Gears

You can use the paddles on your steering wheel to change gears without a clutch. Pull any paddle on the steering wheel to switch this feature on. To change gears:

- ▶ Pull the right paddle (+) to upshift.
- ▶ Pull the left paddle (–) to downshift.

For more information and system operation, please see the **Transmission** chapter in your **Owner's Manual**.

Power Points

USB ports and power points are located in the second row on the center console and in the third row on the quarter trim panels. The power point may be located on the instrument panel or on the rear of the center console.

Front and Rear Parking Aids

The sensors warn you if there is an object in front of or behind the vehicle. The rear sensors are active only when the transmission is in reverse (R) and the vehicle is traveling at a low speed. The front sensors are active when the transmission is in any position other than park (P). As the vehicle moves closer to the obstacle, the rate of the audible warning increases.

Note: Visibility aids do not replace the need to watch where the vehicle is moving. Refer to your **Owner's Manual** for safety information, more details and limitations.

Blind Spot Information System with Trailer Tow and Cross Traffic Alert

This system is designed to aid you in detecting vehicles that may have entered the detection area zone. The detection area is on both sides of your vehicle and trailer, extending rearward from the exterior mirrors to the end of your trailer. Cross traffic alert warns you of vehicles approaching from the sides when the transmission is in reverse (R).

Refer to the **Driving Aids** chapter in your **Owner's Manual** for more information.

Note: Never use the blind spot information system or cross traffic alert as a replacement for using the interior and exterior mirrors and looking over your shoulder before changing lanes. The systems are not replacements.

360-Degree Camera

The 360-degree camera system consists of front, side and rear cameras. It allows you to see what is directly in front of or behind your vehicle, provides cross traffic view in front of and behind your vehicle and allows you to see a top-down view of the area outside your vehicle, including the blind spots.

It also provides visibility around your vehicle in parking maneuvers, such as:

- ▶ Centering in a parking space.
- ▶ Obstacles near the vehicle.
- ▶ Parallel parking.

The front camera enable button is near the display screen and turns on the front camera when your vehicle is not in reverse (R).
