This Quick Reference Guide is not intended to replace your vehicle Owner's Guide which contains more detailed information concerning the features of your vehicle, as well as important safety warnings designed to help reduce the risk of injury to you and your occupants. Please read your entire Owner's Guide carefully as you begin learning about your new vehicle and refer to the appropriate chapters when guestions arise. All information contained in this Quick Reference Guide was accurate at the time of duplication. We reserve the right to change features, operation and/or functionality of any vehicle specification at any time. Your Ford dealer is the best source for the most current information. For detailed operating and safety information, please consult your Owner's Guide.

SERVICE ENGINE SOON 😋 ...

Illuminates briefly when the ignition is turned on. If it remains on or is blinking after the engine is started, the on-board diagnostics system (OBD-II) has detected a malfunction. Drive in a moderate fashion and contact your authorized dealer as soon as possible.

AIRBAG READINESS 🎘

Illuminates briefly when the ignition is turned on. If this light fails to illuminate, remains on or continues to flash after the engine is started, contact your authorized dealer for service as soon as possible. A chime will also sound if there is a malfunction in the indicator light.

LOW TIRE PRESSURE WARNING (1).

Illuminates when your tire pressure is low. If the light remains on, the tire pressure should be checked. If the light does not turn on at ignition or begins to flash, contact your authorized dealer as soon as possible.

MULTIFUNCTION DISPLAY (if equipped) ____

The left side of your instrument cluster can display information such as the fuel gauge, tachometer, engine coolant temperature and the odometer, trip meter as well as the Information menu, Settings menu and the System check. Use the OK and arrow buttons on the left side of your steering wheel to scroll through various menu options and make selections. Refer to the Instrument Cluster chapter in your Owner's Guide for more information.

INFOTAINMENT DISPLAY (if equipped) _

If your vehicle is equipped with the MyFord Touch™ system, you will have an infotainment display on the right hand side of the instrument cluster. Use the OK and arrow buttons on the right side of your steering wheel to scroll through available modes of Entertainment, Phone, Navigation (if equipped) and Climate. You can also perform functions such as answering a call, setting the driver side temperature and more. Refer to your MyFord Touch™ supplement for more information.

COLLISION WARNING SYSTEM (if equipped)

Uses a radar sensor to detect if vehicles ahead of you which are moving in the same direction may be a collision risk. The system will alert you with an audible chime and red warning light which will appear above the dash. If the risk of collision increases,

FUEL TANK CAPACITY/FUE INFO

All-wheel drive vehicles have a 19.2 gallon (72.7L) fuel tank capaci and front-wheel drive vehicles have a 18.3 gallon (69.3L) fuel tank capacity. Use onl "Regular" unleaded gasoline with an octan rating of 87. Do not use E85 fuels because your vehicle was not designed to run on fuels with more

EASY FUEL® SYSTEM

than 10% ethanol.

With this system, you simply open the fuel filler door, insert the nozzle and begin fueling. It is self-sealing and therefore protected against dust, dirt, water, snow and ice. Wait five

seconds from the time the refueling nozzle is

shut-off until the nozzle is pulled back out of the fill pipe to allow residual fuel in the nozzle to drain into the tank. To use a portable fuel container. slowly insert the fuel funnel (located in the spare tire compartment), and pour the fuel into the funnel. When done. clean the funnel or

properly dispose of it Extra funnels can be purchased from your authorized dealer. Do not use aftermarket funnels as they will not work with the Easy Fuel® system

and may cause damage.

CONVENIENCE

FUNCTION

GRADE ASSIST

Aids in optimal gear selection in hilly or mountainous areas. This feature helps you by providing additional grade (engine) braking and extends lower gea operation on uphill climbs To activate/deactivate, press the transmission control switch on the sid of the gearshift lever. Note: Grade assist is not recommended for normal driving.

REARVIEW CAMERA (if equipped)

This system provides a visual display of the area behind the vehicle. The display automatically appears in the touchscreer when the vehicle is in R (Reverse) and uses colors (green, yellow and red) to alert you of your proximity to objects. Note: Visibil aids do not replace the need to watch where the vehicle is moving. Refer to your Owner's Guide for safety information, more detail and limitations.

BLIS[®] uses radar sensors to help you determine if a vehicle may be in your blind spot zone when driving on roads and freeways. The CTA feature alerts you if a car is coming towards you when you are backing out of a parking space. BLIS and CTA will display a yellow indicator light -X- in your exterior mirrors and the CTA system will also sound tones and display messages to warn you which direction vehicles are approaching. Refer to the Driving chapter in your Owner's Guide for more information

BLIND SPOT INFORMATION SYSTEM (BLIS® WITH CROSS TRAFFIC ALERT (CTA), (if equipped)

REVERSE SENSING SYSTEM (if equipped

This system sounds a warning tone if there is an obstacle near the vehicle's rear bumper when the vehicle is in R (Reverse) and is traveling less than 3 mph (5km/h). The warning tone will increase in frequency as the object gets closer and then will sound continuously when the object is less than

10 inches away.

Note: Visibility aids do not replace the need to watch where the vehicle is moving. Refer to your Owner's Guide for safety information, more detail and limitations.

MYKEY®

Allows you to program certain driving restrictions on any standard key in order to promote good driving habits When MyKey® is programmed

- Belt-Minder[®] cannot be disabled and a chime will sound continuously and the audio will be muted until the safety belt is buckled.
- Audible and visual low fuel warnings are provided
- Certain features cannot be turned off such as blind spo information system (BLIS® with cross traffic alert (CTA)
- Audio volume can be limited.
- Vehicle speed can be limited.
- Audible and visual speed warnings can be configured at preselected speeds.
- AdvanceTrac[®] cannot be programmed off.

For complete information. refer to MyKey[®] in the Locks and Security chapter in your Owner's Guide.

BLIND SPOT MIRRORS (if equipped)

Blind spot mirrors have an integrated convex spotter mirror built into the upper corner on the outside mirrors They are designed to help you see a vehicle that may be in your blind spot. As a vehicle approaches, its image will transition from the large mirror to the smaller convex spotter mirror.

ADVANCETRAC® WITH ROLL STABILITY CONTROL (RSC[®]) STABILITY ENHANCEMENT SYSTEM

Your AdvanceTrac[®] system is comprised of three main components: Traction control (which helps to avoid wheel spin and loss c traction, Electronic stability control (which helps avoid skids and lateral slides) and Roll Stability Control™, which aids in avoiding a

vehicle roll-over. These components work together to help you maintain stability and steerability of your vehicle during a variety of road conditions. The system is automatically activated each time your engine is started. You can turn off the feature through the message center.

LOCATION OF SPARE **TIRE AND TOOLS**

Your spare tire and tools are located beneath the carpeted floor panel in the rear of your vehicle. The spare tire is designed for emergency use only and should be replaced as soor as possible. For complete details on changing your tire, refer to the Roadside Emergencies chapter in your Owner's Guide.
